

Group Environmental Policy

Mebuki Financial Group, Inc. (hereinafter referred to as the “Company”) and its group companies (hereinafter collectively referred to as the “Group” together with the Company) will strive to reduce environmental impact in our corporate activities, including the efficient use of resources and the reduction of waste, address environmental issues through our business activities, such as the provision of financial services that contribute to environmental conservation, and contribute to the sustainable growth of local communities.

1. Compliance with environment-related laws and regulations

We will comply with laws, regulations, and rules related to environmental conservation and work to raise awareness of environmental conservation among officers and employees.

2. Environmental conservation through business activities

Through the development and provision of environmentally friendly products and services, we will support customers who are addressing environmental issues.

3. Reduction of environmental burden

We will strive to reduce environmental impact in our business activities in various ways, including the use of sustainable energy, resource and energy conservation, waste reduction, pollution prevention, and green procurement.

4. Response to climate change risks

Recognizing that the problem of climate change is a serious issue affecting the global environment, we will implement initiatives aimed at the realization of a carbon-free society.

5. Promotion of environmental conservation activities in local communities

We will engage in dialogue with local communities in the course of promoting environmental conservation activities.

6. Management framework

The status of the Group's environmental conservation initiatives will be deliberated in the Company's Sustainability Committee before being reported to the Board of Directors, and we will strive to enhance and improve our initiatives for solving environmental problems. We will also consider revisions of this policy as necessary.

7. Publication of Environmental Policy

In addition to the announcement of this Environmental Policy internally and externally, we will strive to improve our initiatives for environmental conservation through the disclosure of environment-related information and dialogue with stakeholders.
