# Average Yield of Loans / Net Interest Income

While the average balance of loans increased, difference of interests between loans and deposits decreased slightly due to decrease of average yield on loans. However, the decrease of loans' yield continued to shrink. Securities' income improved due to strengthening our asset management such as increase of average balances and decrease of market borrowings.

# Initiatives for achievement of SDGs

We will work with all of our stakeholders, including customers, shareholders, employees and business partners, to create a more prosperous regional society and aim to keep growing together with our local communities.

To achieve SDGs together with people in our local communities, we are engaged in promoting activities and providing support regarding SDGs efforts.

## Policy for SDGs Initiatives for FY2021

### 1. We will contribute to revitalize the regional economy by achieving a positive growth cycle of the regional economy through financial and consulting functions.

- We will further accelerate initiatives for revitalization of the regional economy and job creation through our support for solving the issues of our clients and communities.
- Additionally, we will implement initiatives toward the realization of a community where our customers are able to continuously live in comfort, including gerontology and enhanced financial literacy.

### 2. We will develop initiatives for climate change and environment conservation based on our support for TCFD.

- We will provide financial services contributing to environment conservation as well as consulting services including BCP measures, analyzing climate change risks, while striving to reduce environmental burden.
- Additionally, we will formulate a roadmap toward achievement of CO2 emission reduction target by fiscal 2030.

### 3. We will develop initiatives for diversity.

- By nurturing corporate culture that utilizes and develops diverse human resources and by promoting capable and motivated human resources regardless of age and gender, we will create a working environment for all employees and officers, including younger and senior generations, to work with motivation.

# Initiatives for achievement of SDGs

## ● Major initiatives through the Group's business

### Discovering and creating new business

- For the development of the regional economy, we invite people in the community to offer innovative and creative business plans, for which we provide support toward commercialization and growth.
- In FY21, we awarded 27 business plans.

Business Award ceremony

### Initiatives to revitalize the regional economy

- By making the most of the Group's wide-area network, Joyo Bank and Ashikaga Bank jointly hold various business conferences related to agriculture, food and manufacturing to help develop a market and expand economic exchange through business matching, etc. among clients.

### Initiatives based on the knowledge on gerontology

- Toward the realization of the communities where the elderly can continuously live in comfort, we are expanding our services utilizing the knowledge on gerontology. (Asset management, asset succession, etc.)

### Identifying management issues and providing solutions for regional companies

- To support the efforts to solve management issues, we provide optimal solutions through consulting. (Business succession, SDGs consulting, etc.)

### Supporting the growth and enhanced productivity of regional companies

- We provide support for appropriate personnel placement as well as for review of personnel systems to solve issues. In addition, we offer management issue solutions utilizing personnel working side jobs.

### Contributing to communities through private placement bonds with donation scheme

- A portion of the commission received when issuing private placement bonds for customers is used for donating goods to schools or organizations engaged in initiatives for SDGs of the customer's choice.

# Initiatives for achievement of SDGs

## ● Initiatives for climate change and environment conservation

### Initiatives for promoting renewable energy business

- We proactively support our clients' efforts toward the realization of a carbon-free society by providing financial support for renewable energy businesses.

### Initiatives to reduce greenhouse gas emissions

- Setting a reduction goal of CO2 emissions, the entire Group strives to reduce CO2 emissions through measures such as establishing environment-friendly branches and integrating the mail carrying system between offices and branches.

Fuel-efficient business cars

### Subsidies and donations to environment conservation groups

- To support environment conservation activities, we continue to offer subsidies and donations to organizations and groups working on environment conservation.

Kindergartners releasing juvenile fish

### Environment conservation activities

- In addition to tree-planting activities and promotion of environmental education, we make efforts to conserve the environment through reduced paper use by promoting our smartphone app and online passbook. (Tree planting, saving paper resources by promoting online passbook, etc.)

## ● Initiatives for diversity

### Promotion of diversity

- We have established "**Diversity Promotion Office**" as an organization to supervise the initiatives for promoting diversity to create a working environment where women and other diverse human resources can become more active, and to improve organizational capabilities.
- We are conducting "**Mebuki Women's Class**" in order to foster women leaders and proactively promoting capable and motivated women employees to assistant manager positions or higher.

"Mebuki Women's Class"

### Initiatives for LGBT communities

- We offer housing loans and house renovation loans, accepting same-sex partners as spouses. We include same-sex partners as loan recipients in the cases of joint liability or combining income at the time of borrowing, as we aim for a society where people can live by their own values, with their sexual orientation and gender identity being respected.

# Response to Climate Change

Positioning the response to climate change as a key issue on management strategy, we will continue to implement proactive initiatives toward information disclosure in line with TCFD Recommendations and sustainable growth while centrally controlling formulation of initiative policy, planning and progress.

## Governance

- Establishment of the SDGs Committee chaired by the President and Director enabled us to put in place the system by centralizing control over formulation of initiative policy, planning and progress.
- Plans to address social issues including climate change are formulated, while their progress is reported at the SDGs Committee, which is held regularly. The deliberations of the SDGs Committee are reported at the Board of Directors meetings as well.

## Strategies

- Under the Group's philosophy, "Together with local communities, we will continue to build a more prosperous future by providing high-quality, comprehensive financial services," the Company implements initiatives for issues concerning the regional economy, communities, and environment through our business.
- Perceiving measures for climate change and environment conservation as one of the key management issues, we will work on reducing environmental burden through providing comprehensive financial services and conducting business activities.
- We, as a community-based financial institution, will also make efforts to realize sustainable communities, involving the whole community, through consulting services concerning climate change risks of our customers.
- Furthermore, to clarify our stance for initiatives concerning investments and loans for particular sectors that are considered greatly influential to the environment including climate change and to society such as coal-fired power generation, deforestation, palm oil plantation development, cluster munitions manufacturing, human rights violations, and forced labor, we have set the "Environmentally and Socially Friendly Investments and Loans Policy" and strive to control such investments and loans.
- We will further accelerate our initiatives toward the communities' sustainable growth including climate change and environment conservation, while seeking to analyze several scenarios about risks and opportunities of climate change.

## Risk Management

- With a recognition that climate change risks could cause great impact on the Group's business operations, strategies, and financial plans, we will make efforts to establish a system where those risks are manageable within an integrated risk management framework.

## Indicators and Targets

- We have set the target for CO2 emission reduction for domestic offices to "reduce by 30% or more by FY2030 compared with FY2013 (\*1).
- We have achieved a 24.9% reduction of CO2 emissions in FY2020 (\*2), compared with FY2013.

\*1 In FY2021, we start formulating a roadmap toward achievement of CO2 emission reduction target for FY 2030.

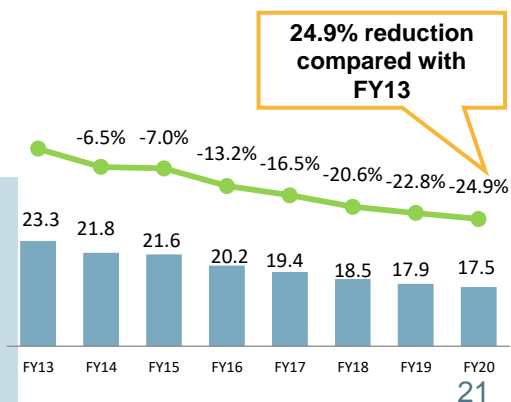

\*2 Total CO2 emissions of Scope 1 + Scope 2 of Joyo Bank + Ashikaga Bank, calculated based on the reporting standards stipulated in the Energy Efficiency Act.

### <Strengthening initiatives to reduce greenhouse gas emissions>

- We will strengthen our initiatives for reduction of CO2 emissions at the group-wide level, setting the reduction target of "30% or more of CO2 emissions at domestic offices by FY2030 compared with FY2013."

### <CO2 emissions of the Group>

● Reduction toward to FY13

### Establishment of environment-friendly branches

- Switching to energy-saving air-conditioning
- Switching to LED bulbs at branches Installing solar power generation system at new branches
- Switching to fuel-efficient business cars
- Integrating the mail carrying system between offices and branches

# Response to Climate Change

We will continue to implement proactive support for customers' efforts seeking the achievement of a sustainable environment and society, by providing renewable energy-related loans for reducing climate change risks and through our environment conservation activities. Further, we will appropriately act for reducing and avoiding negative impacts based on the "Environmentally and Socially Friendly Investments and Loans Policy".

## Major Initiatives for Environment Conservation

### <Initiatives for promoting renewable energy business >

- We proactively support our customers seeking the realization of a carbon-free society by providing financial support for renewable energy business projects such as solar power generation, biomass power generation, and wind power generation.

< Balance of investments and loans related to renewable energy (Bank total) >

Loans	¥195.7bn
Solar power	¥175.7bn
Others (biomass power, wind power, etc.)	¥20.0bn
Investments	¥12.3bn
Total investments and loans balance	¥208.1bn

### <Subsidies for environment conservation groups, etc.>

- Utilizing the mechanism of charitable trust, we grant subsidies to organizations and groups working on environment conservation.

<Subsidies through charitable trust (Cumulative total)>

Number	Amount of Subsidies	Number of cedar trees owned
1,484	159.99 million yen	80

### <Environment conservation activities>

- We have conducted tree-planting and other activities in order to pass our communities' beautiful and sound forests on to the next generation. We are also making efforts to protect limited natural resources by promoting the use of smartphone apps and online passbooks in efforts to save paper.

### <Support for the 21st Century Financial Behavior Principles>

- Supporting the 21st Century Financial Behavior Principles, which was adopted in December 2011 in order for financial institutions in the banking, securities, and insurance industries to work together on expanding environmental finance initiatives, we make efforts toward the formation of a sustainable society.

## Environmentally and Socially Friendly Investments

- Concerning investments and loans to particular sectors that could cause great impact on the environment and society, we will appropriately act based on the "Environmentally and Socially Friendly Investments and Loans Policy".

### 1. Coal-fired power plants

In principle, we will not engage in investments and loans for newly established coal-fired power plants. (However, exceptions may be considered where taking into account background or characteristics of each project such as overall power generation efficiency, impacts on environment and local communities, etc., based on international guidelines.)

### 2. Deforestation

Investment decisions for deforestation operations will be made after careful consideration of the status of acquisition of international certifications by FSC or PEFC, environmental considerations and conflicts with local communities.

### 3. Palm oil plantation development

Investment decisions for palm oil plantation development will be made after careful consideration of the status of acquisition of international certifications by RSPO, environmental considerations, and conflicts with local communities.

### 4. Cluster munitions manufacturing

In view of the inhumane nature of cluster munitions, we prohibit investments and loans for businesses that manufacture cluster munitions, regardless of the use of the funds.

### 5. Human rights violations, forced labor, etc.

We prohibit investments and loans for businesses that violate the principles of international human rights standards such as child labor and forced labor.
